

GET CRACKING!

Leadlight Products (NZ) Ltd

Issue 16, April / May 2006

I'm Confused.....

Allow me to clear up the confusion. As Get Cracking is now normally only available on the website and due to raising costs in postage we are no longer posting out every issue of our newsletter. To receive all the latest info, specials and developments you need to register online at our website www.leadlight.co.nz and select {subscribe} in newsletter options. The registration process was previously called Create Account on our home page and thus confused those of you who didn't want to buy anything just be kept up to date with news etc. So turn on the newsletter option and sit back.

"Yes - They Are Free Online"

On our website you will find loads of FREE patterns. Go to downloads page then scroll down to bottom of the page and click away. All these FANTASIC FREE PATTERNS are there for you to print off your own pattern and start creating those wonderful Art Glass projects. A selection of these patterns are available instore at both Hamilton and Palmerston North stores and have been laminated for protection and durability. Having FREE material available online is part of our vision for the website to be a helpful service for FREE patterns, information, tips and advice. I will be adding more patterns to the site on a regular basis so keep checking for latest additions to the collection and GET CRACKING creating works of art in GLASS.

Well - You Asked For It!

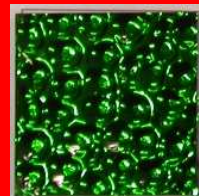

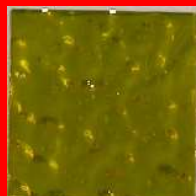

It's Back-The Great Leadlight Products NZ Glass Art Competition 2006

\$1500.00 Worth of Prizes to be Won!!

Shimmer Glass - Beautiful Art Glass silvered to create amazing effects in glass

“Come to the movies – In Palmerston”

Greetings to the faithful,

Wow - Can you believe how the time flies – already it is April and “Glassworks – Leadlight Products” has been operating in Main Street, Palmerston North for 2 years. The showroom is looking great with the 3 of us teaching and creating works of art every week.

As I have said before it is never a dull moment at “Glassworks” with a constant flow of people visiting us for the first time as well as all of our glass addicted customers, students and gypsy’s - it’s wonderful. It’s obvious that John Cleese did not come to Glassworks when he was in Palmerston North as it is far from boring in here!! Have you ever wondered how glass is made? Call into the showroom sometime as we are showing a DVD from Spectrum Glass on the glass making procedure. It is incredible and I’m sure you will all be amazed. We have another DVD for you to see – it is about the fabulous Gemini Taurus Ring saw – how it works and the wonderful shapes you can cut with it.

Our students continue to inspire us and with such a variety of courses available, is it any wonder we are seeing new ideas all the time – well done to all of you.

One of our treasured students thought of me when she read this verse in a magazine, so I thought I would share it with you all too... “People are like stained glass windows. They sparkle and shine when the sun is out, but when the darkness sets in, their true beauty is revealed only if there is a light from within” How true is that!?

Look forward to seeing you all and your entries for the 2nd glass art competition.

Student’s Continue to Amaze

Student of the Month
Ginny Ramsay
Congratulations Ginny well done.

Chris completed this beautiful leadlight window panel at our Keep-on-leadlighting class.

“Keep On Classes Rockin at Glassworks”

Our keep on classes, both the 5 week night classes and the weekend workshops are proving very popular. Students love the inspiration of being part of this follow on group that enjoy getting together and sharing their accomplishments. There are limited spaces left in term two for these exciting courses.
