

# GET CRACKING!

Leadlight Products (NZ) Ltd

February/ March 2007

## Welcome back crafters!

Everyone here is well rested and back into action after the Christmas break. I think we all needed a little recharging of the batteries at the end of last year, and it has worked a treat. We're all ready to get into new projects.

The new year brings a bit of a change in the team, Ricky has left us so Steve is now doing the sales run. This is where he visits our wholesale clients and manufacturers around the north island five days in the month. This means that Amber and I will be manning, well personing, the shop. Please bear with us in this transition time, we will do our best to assist you with what you need when you need it.

The new year has bought a change in the class schedule as well, weekend classes haven't been popular enough to run so we have taken them off the time table. Let me know if you particularly want a weekend class, if I get enough people I will look at adding them back in.

Keep on glass classes are back for all you advanced glass artists, this is a great place to advance your skills and get a little help with those more difficult projects. As well as meeting some new people who are just as passionate about glass as you.

There is a pattern drawing class scheduled for the end of March in Hamilton. This is a great opportunity to spend some time with Steve and his many years of designing experience.

Lastly, try something new this year. Every additional skill you learn is of an advantage to your art. So get started early on those new years resolutions to get back into glass, or to try something different.

We would love to see you in store soon.

Julie

## March Moving Madness!!

Glassworks, our branch in Palmerston North has been sold. To help us move everything you get **20% off all in store stock** from the 1st until the 24th of March. Hurry in for this great deal!

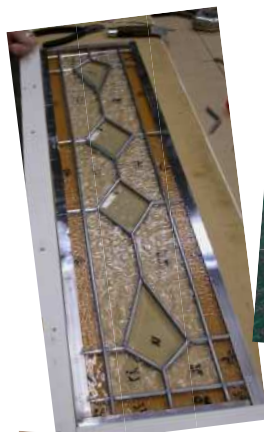

## Stocktaking Madness in Hamilton!!

In Hamilton we have to do a stock take due to the end of the financial year. To help us reduce the amount we have to count you get **20% off all in store stock** also from the 1st until the 24th of March.

Mark these dates in your diary so you don't miss out on this terrific special.

Sorry no back orders from either stores.

## Hot Glass Selection Sizzling!!

We have bought in a supply of new Hot Glass Products including **Fritz, Stringers, Dichroic Glitz samples and shelf primer**. This is to complement our great range of **System 96 Hot Glass**. Get in Quick because it's flying out the door!!

## Pattern Drawing in Hamilton

Steve has decided he would like to share his wisdom with you all, after numerous questions about how to draw up a pattern. So Hamilton Branch is having a pattern drawing session for all you local crafters. Wednesday 28th of March from 7 until 9pm. Get your bookings in!! This is a great class for all glass disciplines.

## What are we missing???

Contact the Hamilton Branch if there is a product that you want but we don't have! We want to supply you with the best range, but we need to know what you want!

## Glassworks On The Move

After three years in our location on main street our Palmerston

North branch, Glassworks has been sold. Don't forget though we are online and you can purchase goods directly from Hamilton Branch, we courier all over New Zealand. So we will no longer be on main street in Palmerston North from the 24th of March.

For our regular Palmy customers please come in during this last month and redeem your gold card gift and take advantage of 20% off from the 1st until the 24th of March. Even if you only have a few clicks present your card to our staff and they will give you the studio gift for that month.

Lastly thanks for your support over the last three years and please don't hesitate to contact Stephen, Julie and Amber in Hamilton with your glass crafting questions.

Above are some of Glassworks fantastic students and their amazing work.

## Farewell from the Glassworks Girls

It is with regret that I write this article for the last time.

As you have probably all heard ....all good things must come to an end. Stephen has decided to sell Glassworks leaving us looking for new challenges.

I would like you all to know that I have thoroughly enjoyed my past three years here @ Glassworks and will miss the friendships we have formed with you all.

You our customers and wonderful students have been a huge inspiration to all of us.

Naturally we wish you all well in your future projects and don't lose the addiction.

Kindest regards,  
Michelle, Tina & Sandy

## Hot Specials Online!

There are some great specials on line at the moment, including a Glasspro Drill Mounted Brush down from \$57.95 to \$39.95 30% off. That's a great deal for you at home leadlighters, making every polishing job easy.

It's only on line so go to [www.leadlight.co.nz](http://www.leadlight.co.nz) and place your order today.

All specials in this flyer are subject to availability and cannot be used in conjunction with any other special.

### Safety Tip

There is many 'un-truths' quoted about working with lead, and many people think you can get lead poisoning from leadlighting. If you observe these Health and Safety guidelines there is no reason to fear working with lead.

#1. Do not eat or smoke when handling lead. #2. Do not rub your eyes when handling lead. And finally #3. Use a heavy metals soap such as *Clean All Plumbers Hand-wash* to wash your hands after handling lead, Copperfoil and flux. This is available from Leadlight Products in a convenient 500ml pump pack.

## Learn Something New This Year!

Get in contact with Hamilton branch to find out about courses available.

We have beginner and advanced classes to suit your skill level. Small classes provide easy learning environment and a fun atmosphere makes learning a pleasure.
